SUMMARY

Full-Stack Developer specializing in building scalable, production-ready web applications using **Next.js, TypeScript, Node.js, and PostgreSQL**. Experienced in designing RESTful APIs, implementing secure authentication systems, integrating AI APIs, and deploying cloud-based applications. Strong foundation in system design, database architecture, and modern frontend frameworks. Passionate about building AI-powered products and high-performance web platforms.

SKILLS

Languages: C++, JavaScript (ES6+), TypeScript, SQL
Frontend: React.js, Next.js (App Router), Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, RESTful API Development
Databases: PostgreSQL, MongoDB, Supabase
Authentication: NextAuth.js, Clerk, GitHub OAuth
ORM & Tools: Prisma, Git, Docker, Vercel
AI & Automation: Gemini AI API Integration, Inngest
Deployment & DevOps: CI/CD basics, containerization with Docker

PROJECTS

FinTrack — AI-Powered Personal Finance Application

[Github](#) | [Live Demo](#)

Tech: Next.js, React, Supabase, Prisma, Tailwind CSS, Clerk, Gemini AI, Inngest

- Architected a full-stack AI-powered finance platform with secure authentication and normalized PostgreSQL schema design.
- Integrated Gemini AI to generate automated financial insights, spending predictions, and budgeting analytics.
- Implemented real-time dashboards and background workflows using Inngest for scheduled data processing.

ReadmeAI — AI-Based README Generator (SaaS)

[Github](#) | [Live Demo](#)

Tech: React, Node.js, Express, GitHub OAuth, Gemini AI, Vite

- Built a full-stack SaaS application for AI-driven README generation using structured markdown templating.
- Developed RESTful APIs with GitHub OAuth integration for secure repository access and prompt orchestration.
- Automated repository parsing and documentation formatting to streamline developer workflows.

INcBlog — Tech Blogging Platform

[Github](#) | [Live Demo](#)

Tech: Next.js, TypeScript, Tailwind CSS, Prisma, NextAuth, Sentry

- Engineered a multi-user blogging platform with secure JWT/session-based authentication and protected routes.
- Designed relational database schema using Prisma ORM for scalable data management.
- Integrated production-grade error monitoring using Sentry to improve system reliability.

OPEN SOURCE CONTRIBUTIONS

- Delivered 1000+ lines of merged contributions across 3 open-source full-stack projects, including frontend UI components and backend API logic.
- Implemented feature enhancements, resolved authentication and performance issues, and improved overall codebase maintainability through structured pull requests and code reviews.

EDUCATION

Maharaja Agrasen Institute of Technology, Delhi
Bachelor of Technology (B.Tech) in Computer Science and Engineering

Aug 2024 – Present
CGPA: 9.2 / 10
